SUMMARY

       I am a full stack developer prepared to learn and develop my skills through experience. I have recently received a certificate in full stack development from Southern Methodist University, acquiring skills in web design, CSS, Javascript, React.js, and MySQL. I have especially learned how to work as a team to build different programs in this course, giving me vital experience of working on projects. Coming from a background in music, I have been able to use my ability to adapt to what I am working on to quickly learn and accomplish tasks as well as work with different people. As I explore the world of coding I aim to constantly hone my skills as well as gear apps I work on to provide the best user experience.

TECHNICAL SKILLS

Languages: HTML, CSS, Javascript
Applications: NodeJS, Express, MongoDB, GraphQL, MySQL, React

PROJECTS

DeFi101 | **Github: https://github.com/Mamii868/Defi-101**
Website: https://mamii868.github.io/Defi-101
- This application lets you search different cryptocurrencies, gives an introduction to cryptocurrency, and shows news regarding the specific currency selected
- I created a separate page showing videos to teach about crypto as well as a news portion that updates based on what currency is selected.
- **Tools / languages used**: HTML, CSS, Javascript

Collection Social Share | **Github: https://github.com/Mamii868/collection_social_share**
Website: https://collection-social-share.herokuapp.com
- This application is a take on social media for collectors, allowing you to upload pictures of your collections online to show off.
- I was tasked with using MySQL to create a database to store and pull the accounts and collections as well as design the pages.
- **Tools / languages used:** HTML, CSS, Javascript, MySQL, NodeJS, Express

App Track | Github: https://github.com/Mamii868/app-track
Website: https://powerful-reaches-64620.herokuapp.com
- This application lets users create an account and manage job applications on a job board. The user is prompted with places to fill in information as well as an option to scrape data from LinkedIn about the job posting.
- I created and managed the database and most functions interacting with the information using GraphQL.
- **Tools / languages used:** HTML, CSS, Javascript, NodeJS, React, MongoDB, GraphQL, Express

EXPERIENCE

Secretary   2020 - Present
Lindstrom Law Firm   Mesquite, TX
- ● Provided a faster way of managing clients by using a database to keep track of information.
- ● Assisted in gathering a large list of potential clients and business partners to grow the company's network.
- ● Managed new office location to ensure cleanliness and optimal communication with the main office.

Senior Lifeguard   2019 - 2021
Garland Aquatics   Garland, TX
- ● Properly sanitized and maintained park to maintain cleanliness and quality standards of Garland Aquatics.
- ● Used critical judgment skills to uphold the standard of safety inside the facility

Key Accomplishments:
- - Informally recognized as one of the driving forces of the workforce at the facility.
- - Constant recognition from the higher-ups for outstanding effort and results.

EDUCATION

Southern Methodist University, Dallas, TX   April 2021 - October 2021
Certificate in Full-Stack Web Development
- ● A 24-week intensive program focused on gaining technical programming skills in HTML5, CSS3, Javascript, JQuery, Bootstrap, Node Js, MySQL, MongoDB, GraphQL, Express, Handelbars.js & React.

Dallas College, Dallas, TX   2020-2021
- ● Completed one full year
